

Don't let the grain bugs bite your profits!

Grain bin **infestations** cause significant **profit losses** to farmers each season.

Infestations can easily be **prevented** by **treating** your **empty bins** with **Protect-It®** and **mixing** the product into your grain as you **fill your bin**.

Be proactive this season – **insure your grain quality** by applying **Protect-It®** before you load your bins.

Ask us at this location about **Protect-It®**.

- **Proven**
- **Cost Effective**
- **Long Lasting**
- **Odourless**
- **No Chemical Residues**
(OK for canola bins)
