

Rodent Management Services

Since 1978 we have provided the Agri-food industry with professional pest management service.

We specialize in **rodent and insect management** for all levels of the farm and agricultural community. We pride ourselves on safe, effective and friendly service specific to each customer's needs.

Let us provide a **customized rodent management program for your facility.**

All of our courteous service technicians are fully licensed and insured. Weekly, monthly or bi monthly service frequencies are provided and customized to each operations requirements.

We can also provide professional equipment, products and consulting to the Agri-food community.
