

Pest Management for the Equine Environment

Rodent Management

Rodents can cause structural damage, loss of revenue from eaten or spoiled feeds and carry disease. Let us set up

Rodent Management using safe and effective products

your operation with a customized, safe and effective rodent management program. Our friendly licensed professional technicians use only registered products and techniques. We utilize a baiting and trapping program where

all baits are presented in secure tamperproof stations. The safety of your equine family and their home is our priority.

Tamper Proof Bait Stations

Multi Catch Trap

Pest Management Products

Although our primary focus is to provide a pest management service specially designed to your operation...we can also provide the products you require to do it yourself.

Rodenticides, Insecticides, Tamper-proof Bait Stations, Multi catch Traps, Snap Traps, Glueboards, Aerosols Sprays, Flylights and much more.....

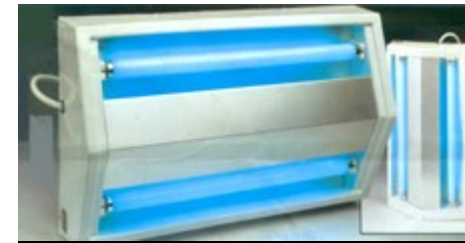

Fly Control

The health and well being of your equine family can depend on the comfort you provide for them in their stables. Flies are a nuisance and we can help manage the problem. We offer a variety of products for fly management from aerosols to fly lights. We strive to provide safe, effective and equine friendly solutions.
